## GERMAN PEOPLE INFORMED AS TO FINANCIAL STANDING

New Minister of Finance Addresses National Assembly  
LOST 161,000,000,000 MARKS  
Largest Loan Ever Asked of German People is requested  
Haven't Known the Truth About War's Cost Dr. Schiffer States

(By Associated Press)

Weimar, February 15.—The German people generally do not yet understand clearly the financial situation in which the war has left them and they are too optimistic, declared Dr. Schiffer, the minister of finance, in address to the German national assembly today.

He apparently astonished the house when he gave the statistics showing the war had cost 161,000,000,000 marks.

Dr. Schiffer then asked the assembly to vote a loan for 25,300,000,000 marks, the greatest loan the German people ever have been asked to raise.

### RANTZAU RESIGNS

(By Associated Press)

Basel, Switzerland, February 17.—Count Von Brockdorff Rantzau, the German foreign minister, has resigned, according to a Weimar dispatch to Berlin. There is no confirmation.

### THE SPARTACANS SEIZE UTILITIES IN NUREMBERG

Telephone, Telegraph and Newspaper Offices in Hands of Radicals

(By Associated Press)

Copenhagen, February 17.—The telephone, telegraph and newspaper offices at Nuremberg, Bavaria, have been occupied by spartacans, according to reports reaching here.

The outbreak followed an attempt by the government forces to disperse a procession of spartacans who were protesting against the reorganization of the Bavarian army.

Shots were fired into the crowd, which took matters into its own hands and stormed the army headquarters and seized the telephone, telegraph and newspaper offices.

### ESTABLISHMENT OF THE REPUBLIC NOW ANNOUNCED

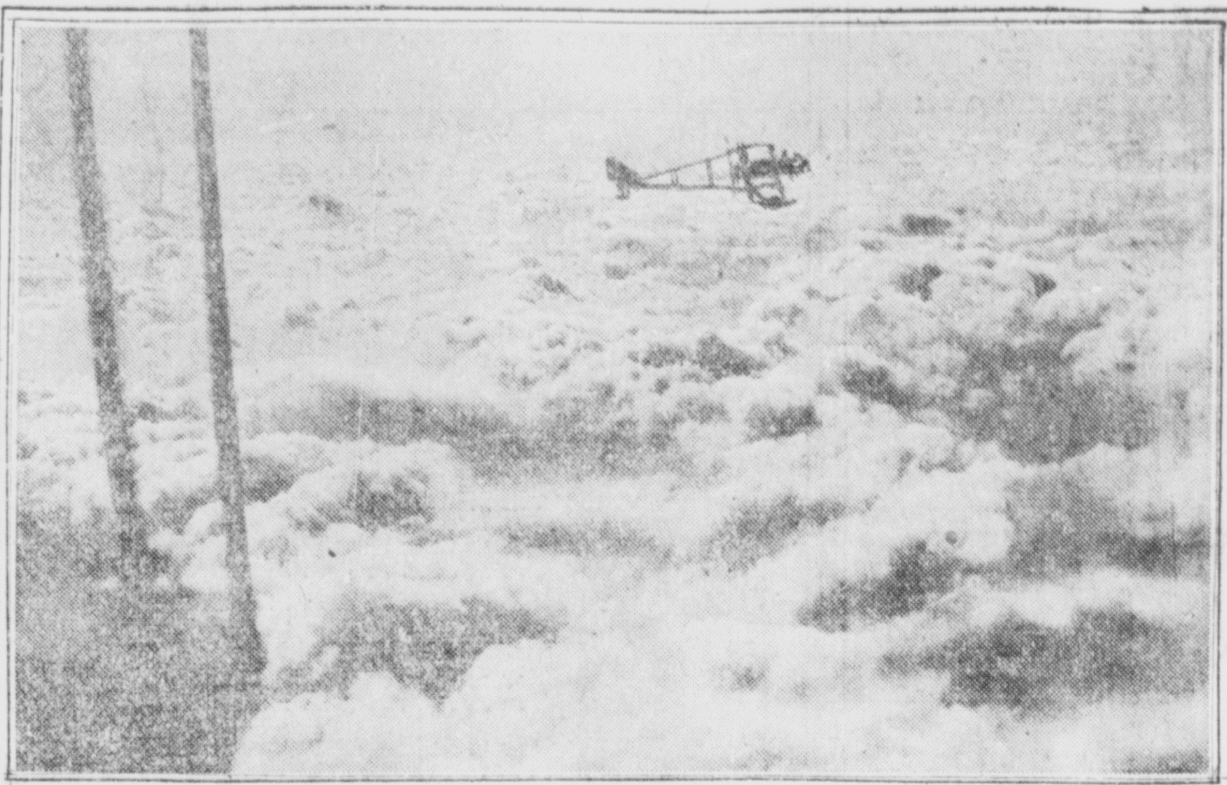

Portugal Issues an Official Statement

(By Associated Press)

Lisbon, Portugal, February 16.—An official statement issued by the government today announces re-establishment of the authority of the Republic in Oporto, which has been the center of the monarchist movement.

The members of the monarchist government have been arrested and their troops have been either surrendered or dispersed.

### THE GERMANS ACCEPT TERMS OF THE ALLIES

Leaders of Various Factions Join in Meeting Which Takes Final Action

(By Associated Press)

Copenhagen, February 17.—The German government on Sunday night accepted the allied terms for the extension of the armistice, according to a dispatch from Weimar. The meeting at which the acceptance was decided upon was attended by leaders of the various parties, according to the dispatches.

### NO BOLSHEVIKI ATTACKS SINCE FEBRUARY 11TH

Allied Airplanes on Archangel Front Report No Enemy Activity

(By Associated Press)

Archangel, Feb. 17.—Since February 11th the Bolsheviks have made no attacks against the allied forces on any sector of the Archangel front. Allied airplanes which are continually aloft, report that there has been no movement behind the enemy line since the Bolsheviks withdrew south from Broomakrenga.

While the cessation of attacks has been coincidental with the Bolsheviks offer to attend the Princess Islands conference their offensive was really checked by American and allied troops.

The allied military leaders do not think the Bolshevik acceptance of the invitation to the conference caused the inactivity.

The Bolsheviks are increasing their efforts to destroy the morale of the new Russian conscript soldiers as well as of the American and British troops.

Bolshevik propaganda, printed in English, has been distributed among the various allied units.

### DE PALMA SMASHES WORLD'S RECORDS

RALPH DE PALMA

Ralph de Palma broke the world's automobile records for both the mile and a kilometer in straightaway dashes over the beach course at Daytona, Fla., according to a report from there. The time for the mile, as announced by officials of the Automobile Association of America, was 24:02 seconds against Bob Burman's record of 25:40 seconds. De Palma's kilometer time was 15:56 seconds, or two seconds below the record. De Palma uses a twelve cylinder aviation motor in his machine.

### CAPT. EDDIE ARRIVES HOME

Columbus Extends Royal Greeting to America's "Ace of Aces"

(By Associated Press)

Columbus, O., February 17.—Captain Edward Rickenbacker arrived here at 9:46 this morning from Washington. He was met by a reception committee composed of a delegation of his fellow townsmen.

He was immediately hustled away and will be kept in retirement until the official greeting is given him this afternoon by a parade in which more than half a hundred organizations will take part. A half holiday has been declared.

### NO LEGISLATION FOR RAILROADS

Oklahomian Just Back From Overseas Gives Out Startling Statements

(By Associated Press)

New York, February 17.—United States Senator Robert L. Owen, of Oklahoma, who for the last two months has been studying the reconstruction program of the American army in France, upon his arrival here today on the Rotterdam, said:

"Brest is not fit for cattle to live in."

"Many of the soldiers there are suffering from melancholia," he said, adding that he would recommend "that they be brought home as soon as possible and every care be given them when they return."

### FRENCHMEN CRITICIZE DELAYS OF CONFERENCE

Premier Borden's Speech is Favorably Received by French

PICHON, TOO, IS IMPATIENT

Troops Anxious to Get Home Should Not be Held by Conference Delays

(By Associated Press)

Paris, February 17.—Premier Borden's speech here last night in which he criticized the delay in consummating peace while the troops are anxious to return to their homes, has made a good impression here.

The same view is said to be taken by some Americans.

Stephen Pichon in discussing obstacles to an immediate peace during a talk with representatives of the press today, said there were many reasons why a treaty could not be signed at once. Many issues that will form the basis of peace, he said, were being carefully studied. Among them is disposition of many of the fragments into which the Austrian empire has been divided and another is the treatment to be accorded Bulgaria.

The French, he said, want peace, but they realize the danger of unsatisfactory solution. He said also that there was no obstacle being extended the new German government, but added that the Germans must realize they have been beaten.

### THE SPARTACANS PLUNDER CITY

Military Authorities of Gelsenkirchen Are Overcome

(By Associated Press)

Berlin, February 16.—Spartacan troops from nearby towns marched into Gelsenkirchen, in Westphalia early this morning, and overpowered the local military and police forces, a portion of which went over to the spartacans. The plundering of the city followed.

### SHIPS NEED FIREMEN

### OHIO ASSEMBLY ENTERS ON ITS SEVENTH WEEK

Will Convene at Five O'clock This Evening

(By Associated Press)

Columbus, O., February 17.—The General Assembly entered upon the seventh week today. Both houses were scheduled to convene at five o'clock. It was said Captain Edward Rickenbacker would pay a visit to the assembly this evening.

### FIRST VISIT

MAJOR J. W. HUFFER

Major John W. Huffer, of the American Air Service, who arrived recently in New York aboard the liner Stockholm, on his first visit to the United States. Major Huffer was born in Paris of American parents and lived there all his life. He enlisted with the American Ambulance Service in 1914. The following year he was transferred to the French Foreign Legion. While with his famous regiment Major Huffer received several decorations for bravery. When the United States entered the world war he obtained his transfer to the American Aviation Service and is officially credited with downing four enemy planes.

### ATTENTION ONCE MORE FOCUSED ON RUSSIA

Time Limit For Princess Islands Conference Has Expired

CHURCHILL WOULD RENEW

May Appoint Committee to Get Into Touch With Opposing Elements

(By Associated Press)

Paris, February 17.—Attention of the delegates to the peace conference was focused on Russia today, the supreme council having decided as the time allowed for acceptance of the invitation to the Princess Islands conference has expired, something else must be done.

Winston Spencer Churchill, of Great Britain, has proposed that the invitation be renewed and that some of the conditions that made the first invitation unacceptable to some of the factions be omitted.

If the council accepts the proposal as seems possible, it probably will not insist that the conference be held at the Princess Islands. It is possible that instead a meeting of Russian factions to direct negotiations may be initiated, or commissions will be appointed to get into touch with opposing elements.

### TO BETTER CONDITION IN RUSSIA

Sec'y Baker Transmits Advices from President to House Committee

(By Associated Press)

Washington, February 17.—Steps toward improving the situation of the American and allied troops in Russia are about to be taken under the direction of the supreme war council.

It is understood the contribution of the United States to a supplementary force will be several companies of engineers to aid in keeping lines of communication open to the sea.

Secretary Baker notified the House Military Committee today that President Wilson had informed him of the plans and again gave assurance that the American soldiers were in no danger of being cut off.

Secretary Baker, transmitting the information from President Wilson to the House Military Committee said today the American soldiers should be out of Russia this spring.

Steps toward strengthening the position of American and allied troops in Russia as a preliminary to their safe withdrawal in the near future are under way at the direction of the supreme war council.

To facilitate the withdrawal additional forces are being dispatched, Great Britain is sending 2400 and the United States engineer units of about 500 men.

### "EDDIE" NATIVE OF BAINBRIDGE

# DRAFT BOARD TO CLOSE ITS OFFICES WITHIN FEW DAYS

*Enviably Record of Achievement Left By Board Which Handled Draft In Fayette County.*

**4200 Men Registered And Classified, 800 Examined And Over 450 Inducted Into Military Service.**

The Fayette County Draft Board is preparing to close its offices, after shipping all records to the Provost Marshal at Washington, D. C.

Announcement was made a day or two ago that the office would be formally closed as soon as an inspector arrived and placed his O. K. on the shipments, etc.

The Draft Board during the period it was in existence was one of the busiest places in the city, and 4200 men in Fayette county were registered and classified under its direction, some 800 examined to determine their physical condition and more than 450 inducted into the service.

The complex records necessary under the draft system, and the red tape generally made it necessary part of the time to use two to four clerks in addition to the incessant work of Chairman J. M. Willis, and help furnished by the other two members of the board, R. C. Peddicord and Dr. D. H. Rowe.

It is believed that no draft board in Ohio performed its work more effectively than the Fayette County Draft Board, and this was due largely to the personal and unstinted efforts of Chairman Willis, who not only devoted long hours each day but whenever occasion demanded did not hesitate to return to the office to labor into the night.

## TO WED PRINCE

Formal announcement has been made of the engagement of Miss Elizabeth Asquith, daughter of Herbert H. Asquith, former Prime Minister of Great Britain, to Prince Antoine Bibesco, Councillor at the Rumanian Legation, according to a report from London. Prince Bibesco was at one time First Secretary at the Rumanian Legation in Washington. Miss Asquith was at one time last year reported to be engaged to Stephen Mc. Kenna, nephew of former Premier Arthur J. Balfour.

# SATURDAY EVEN'G POST HAS PICTURE FORMER LOCAL BOY

On page eight of the February 8th issue of The Saturday Evening Post appears a picture of Joe Hayslip, former printer of this city, who has been making a name for himself as a member of the U. S. Marines, although his name is not mentioned in the article which the picture is a feature—

"The Last Fight."

Hayslip's picture is carried as typical of the U. S. Marines, and friends in this city have no difficulty in recognizing the young man.

Hayslip had been associated with the Green County Journal published at Jamestown, but enlisted in the Marines when the Mexican situation began to look serious, and was one of the landing party at Vera Cruz when the American forces seized that city and harbor.

As a member of the Marines he was sent to France and went through some of the bitterest fighting of the war, doing his bit unflinchingly and going over the top so often that it had no terrors for him.

Hayslip is one of many Washington and Fayette county men who saw months of the hardest kind of fighting and endured hardships that cannot be described in order to beat the Huns and do it in a hurry.

## BRIEF SERVICES HELD AT GRAVE

Rev. J. L. McWilliams conducted brief funeral services for Charles Darwin Tefft, son of Mr. and Mrs. Wm. A. Tefft, at the grave Saturday afternoon.

The hymn read was "The Home of the Soul."

The deceased was born January 17, 1863, in Parkersburg, W. Va., and was educated by the Deaf and Dumb Institute in Columbus, graduating with honor. This affliction came upon him when but three years of age. His lovely disposition and his patience endeared him doubly to family and friends.

His home was in Grass Creek, Ind. When his health failed his older brother, Leland Tefft, cared for him in his own home until the end came on Thursday at the age of 55 years.

The former Kaiser is reported to have a severe cold in the head. The cold evidently extended from his feet.

## CLOTHING WANTED BY THE SERBS

(By Associated Press)

New York, February 17.—"Send a shipment of clothing to Serbia," is the plea of Madame Slavko Grouitch, wife of the Minister to this country from the new kingdom of Serbs, Croats and Slovenes, who started today an organized effort to obtain from the American people the material desperately needed by Serbians.

Not only manufactured clothing but cloth by the yard and especially footwear is desired, according to Mme. Grouitch, honorary chairman of the Serbian Aid Fund Clothing Committee, which has undertaken the task of collecting the clothing and which has its headquarters at 333 Madison Ave., this city.

Arrangements have been made to receive there all express or parcel post shipments. Transportation to Serbia has been arranged through the Washington legation of the new Jugoslav kingdom.

# TO OUR GROWERS

We wish to announce our prices for peas for the season of 1919, which will be Three Dollars per hundred pounds for good O. K. stock, or \$60.00 per ton, delivered at our factory at Washington C. H.

It is not necessary for us to dwell upon the subject of the growing of peas, as our old pea growers who have had experience in the growing of peas can attest to their crop value, not only from the standpoint of profit, but their value in the rebuilding of your land, thus increasing soil fertility. For the benefit of our farmer friends who have never grown this crop, we give below a number of our growers, together with acres planted and their yield per acre, for the season of 1918.

Jesse Allen	.....5	acre average	.....1839	pounds per acre
P. R. Armbrust	.....3	acre average	.....2224	pounds per acre

Carson West	.....5	acre average	.....1857	pounds per acre

Peas are not unlike any other crop, but you know that if you wish to produce a good crop of peas, corn, oats, etc., you cannot expect to harvest a good crop unless the crop is planted in good ground, and the soil is adapted to the crop. Peas being a leguminous plant add to the soil. It takes good ground well drained. It is the duty of our Field Inspector to go into the matter fully and assist you, for that reason we do not want you to grow peas on land not adapted to them, for it would not only be unprofitable to you, but also a loss to us. That is why we exercise the greatest care and want your judgment and experience also in the growing of our crops. Please bear in mind in quoting these averages on peas, these growers produced a second crop on the same land, such as sweet corn and field corn. To insure a healthy stand of alfalfa or clover is by the growing of peas.

Our Inspector, Mr. Harry Hyer, is now in the field contracting pea acreage for this season and will call upon you. However, any information desired, in case he should fail to reach you, you can call by phone at the Factory, or our branch office, located with the Edgar Snyder Insurance Company.

## HARTMAN THEATER COLUMBUS, OHIO.

"Maytime" the musical play that ran for one year and four months in New York, five months in Chicago, and three months in Philadelphia, is to be seen at the Hartman Theatre, Columbus, Ohio, all this week beginning Monday, February 17th, with the original New York cast headed by John Charles Thomas, John T. Murray and a score of others. After its run in New York this company went to Philadelphia and it is the same company which comes here.

Messrs. Shubert produced "Maytime" in New York on August 17, 1917 and the fact that this company has been playing in the same piece continually ever since would indicate that it is the most remarkable success of the century. Instead of sending out inferior second companies, Messrs. Shubert are keeping the first cast intact and it is this company that will visit most of the larger cities.

Another remarkable thing about the play is the casting of smaller parts. "Maytime" is a musical gem that would make as big a hit without music, but then "Maytime's" score is simply delightful. The story covers a period of over 70 years and shows the lovers in youth, middle age and finally old age. But there is a surprise in the last act that sends everyone out of the theatre with a smile. New York and Philadelphia simply raved over it, this city is sure to do the same.

The costumes and scenery are quaint. The first period is 1840 and the next fifteen years later and so on until the present time. Even the music is suited to the times. For example, in one of the periods the audience is treated to a famous old dance called "Jump Jim Crow." There are numerous bright and diverting dances in the piece including a rapturous Spanish dance.

## HOOVER ASSERTS GERMANS BROKE LAWS OF DECENCY

Northern France and Belgium Stripped by Lawless Huns, Says Food Administrator

Paris, February 17.—(By Associated Press)—Reviewing the relief and food conditions in northern France and Belgium in an address before the Circle Volnay last night, Herbert Hoover, the United States food administrator and director general of the interallied relief organization, said: "I have been asked to say a few words on the revolting situation now carried on for nearly four years, of the occupied areas of Belgium and northern France."

"It was about a year after the foundation for the commission for relief in Belgium before any other systematic attempt was made at food administration in the world. It also represents the first interallied operations which embraced the United States States for its financial support and administration of the joint effort of America, France, England and Belgium. Its enterprise is of considerable volume, as its transactions now exceed 5,000,000,000 francs. It has been carried on without profit, with a large measure of idealism and self-denial and with the aim of the allies the amelioration of injuries brought about by Germany."

"I have recently revisited the devastated regions of northern France and Belgium. There is no man, even without personal experience of two and one half years of German rule, who could pay a mere casual visit to northern France and Belgium without experiencing renewed fire of indignation at the men and forces which brought about this appalling situation."

"It is now four years and three months since I first came into contact with the people of the invaded regions. At that time my American and Belgian colleagues had established the relief of Belgium, but there came on every wind stories of the pitiable situation of the French population under German control. The Germans, in defiance of every canon of international law and morality, even human decency, had taken from the French population their harvest and cattle, and the French women and children were combing over the awful heaps in the German camps. The work of myself and my American colleagues was supported by public charity, and we quickly spread that charity to the people of the north of France."

"With the backing of the American government, agreements were perfected with the German government at Berlin, and the German general staff at Charleville by which it was undertaken that there should be no interference with the distribution of foodstuffs, that there should be protection of the produce of the population—agreement which read well to the world, agreements which were often carried out in the letter, but never except under pressure, carried out in the spirit, which involved years of constant complaint, bickering, pressure and intervention by neutral governments."

## FATHER AND SON BANQUET WILL BE HELD TUESDAY EVE.

The annual Fathers' and Sons' banquet will be held in the basement of the Grace M. E. Church Tuesday evening at 6 o'clock and a large number of men are expected to attend and bring one son, or, if they have no sons, bring a boy anyway.

The cost will be only 50c to each man, and this ticket will admit a boy without additional charge.

Good things to eat and a number of interesting speeches will feature the jolly event.

The object of the meeting is to create a closer spirit of good fellowship between fathers and sons and men and boys generally.

The committee in charge urge that tickets be secured at once so that something like definite figures on the number of men and boys to be fed will be known by Tuesday noon. Walter Herron is chairman, and tickets may be obtained from the following persons and firms: Henry Brownell,

Fred M. Mark, Phil. E. Rothrock, S. M. Fletcher, Wm. Patton, Herman Price, Joe Mark, A. W. Duff, F. M. Kennedy, Ira O'Brian, Geo. B. Cheyey, C. U. Armstrong, B. E. Kelley, Earl McClean, Herman Fry, W. E. Ireland, Walter Craig, Rodecker's News Stand, Haver's Drug Store, and Christopher's Drug Store.

## SUCCESS CROWNS CONTINUED EFFORT

The Church of God is now comfortably housed in the large front room at the home of Mr. and Mrs. Will Dawes, corner Gregg and Pearl street, which has been fitted for a meeting place. Mr. Charles Allen generously furnished the chairs.

This little band has been working earnestly and prayerfully for some little time past, and their unlimited faith in God's power to heal the sick and afflicted now, the same as in Bible times has been rewarded by physical helpfulness as well as indications of soul salvation.

A Sunday School has been organized and an attendance of 36 reported for the Sunday past. Everybody welcome.

## R. H. WESTERFIELD DIES IN NEW YORK

Friends are deeply sympathizing with Mrs. Aurelia Westerfield and Mrs. R. C. Peddicord in the death of the only son and brother, Mr. Richard H. Westerfield, which occurred at the home in New York City early Sunday morning, caused by an attack of pneumonia.

Word of Mr. Westerfield's critical condition reached here Saturday and Mr. and Mrs. Peddicord left on the morning train for New York, but the summons had come before they arrived.

For a number of years Mr. Westerfield had made his home in New York where he held the position of floor walker in the B. Altman & Co. store. He was 46 years of age. While his home had not been in this city for many years, it was here that "Rich" Westerfield spent his boyhood and grew to young manhood, and numerous family and personal friends remember the handsome and prepossessing young fellow, exceedingly popular with his associates, and share, in lesser measure, the overwhelming shock to his family in his untimely death.

The body, accompanied by the wife and Mr. and Mrs. Peddicord, arrives from New York on the 2:30 P. & O. train Tuesday afternoon and will be taken to the Peddicord home on N. Fayette street. The two sons, Asher and Richard, came over from Dayton on the morning train. Funeral services will be held at the home of the sister, Mrs. R. C. Peddicord, at 2:00 p. m. Wednesday.

## FUNERAL SERVICES GEORGE WHITMER

The body of Mr. George Whitmer, who died at his home in South Charleston Saturday, was taken to Jeffersonville Monday where funeral services were conducted from the M. E. Church at one o'clock, followed by burial in the Fairview cemetery.

Mr. Whitmer until two years ago resided at Jeffersonville, and was well known in Fayette county.

### The Monroe Doctrine

We are certain to hear and read much about the Monroe Doctrine following the submission of the agreement, made at Paris, between the great nations, which is to be the basic law of the league of nations.

There will be many references to the Monroe Doctrine and no end of contention as to whether the league of nations proposals are in violation of that principle which we, Americans, have so long regarded as one of our fundamental policies—almost one of our principles of government.

There will be contention, too, that while the league of nations proposal may result in the abrogation of the Monroe Doctrine, it has long ceased to be useful as any real or substantial part of our foreign or domestic policy; that we have outlived it.

It is well, in view of these various discussions, certain to come, that we understand what the Monroe Doctrine is and "why" it was promulgated, because there will be a great many people who will glibly refer to the Monroe Doctrine in support of their contentions who know comparatively nothing about it.

The Monroe Doctrine was promulgated after the close of the war of '12 and during the period of reconstruction in Europe following the conclusion of the Napoleonic wars.

European thrones, overturned by Napoleon were set up again. The effort in every European nation was to restore things as they were before Napoleon's meteoric career had upset Europe. Old conditions were generally restored in every land save Spain whose American colonies had revolted and become free states.

Spain appealed to the other European nations to aid her in recovering her lost colonies in America, and when it seemed probable that her request would be complied with it was the long headed British who saw the peril to British and American trade the re-establishment of Spanish power in the Western Hemisphere would carry with it.

Mr. George Canning, the watchful minister of Great Britain, suggested to Mr. Richard Rush, the American minister in London that the United States should join Great Britain in protesting against the attempt of any outside power (Austria under the leadership of Metteruich having assumed the task of restoring European thrones and prestige) to restore Spain's authority in America.

The American secretary of state, Mr. Adams, did not approve of the plan but he did approve of the object sought. Mr. Adams stated that the adoption of such a course was merely to make the United States "a cockboat in the wake of the British man-of-war" and draw them again into European politics.

A different step, but one which accomplished the same object, was taken.

President Monroe having in 1822 recognized the independence of the South American republics, in his annual message to Congress in December, 1823, defined the attitude he would assume if any European powers sought "to extend their system to any portion of this hemisphere," in these words:

"With existing colonies or dependencies of any European power we have not interfered and shall not interfere. But with the governments who have declared their independence and maintained it, and whose independence we have, on great consideration and on just principles, acknowledged, we could not view any interposition for the purpose of oppressing, or controlling in any other manner their destiny, by any European power, in any other light than as the manifestation of an unfriendly disposition toward the United States."

The meaning was plain. Spain and the European nations inclined to aid her gave up any attempt to regain the South and Central American colonies and for nearly a century that announcement has stood as the guidepost to all the world so far as the Americas are concerned.

That's the Monroe Doctrine and the development which gave it birth, a doctrine which has long been a pride to the people of the United States, a doctrine which President Monroe and Mr. Adams regarded as wholly American.

POEM FOR TODAY

PREMATURE FEVER

Give a pocketful of winter for a thimble full of spring; Just feel myself a'tchin' for to hear a robin sing! The fishin' line is callin' and I want the old batteau And the blue bay with its message from the Talbot that I know! Premature spring fever, But it's got to work its way Through the system of a feller Till the bullfrog brings the May!

Bet you worms are squirmin' and the shrimps are snoopin' round In the shallows where the reeds along the river's rim are found! Bet you pussy willows have come out to know and see What the world is goin' to happen when the fever get in me! Premature spring fever, But as sweet and full of tune As a rosebud in the valleys Or the marigolds of June!

Haven't had much sleedin' and no skatin' you could say, But I'm hungry for the trumpets of the tulip trees to play! Feverin' for the pastures and the medders of the green, With the dandelions peepin' like gold buttons on the scene! Premature spring fever, But a willin' victim, me, With the fishin' line unraveled, And the spring wind on the sea! —Baltimore Sun.

LARGEST HELIUM PLANT IN WORLD AT FORT WORTH

Insures Safety to Gas Balloons Because New Gas Cannot Be Set On Fire

Fort Worth, Texas, February 1.—(By Associated Press Correspondent) The only helium plant in the world is being erected in North Fort Worth by the United States Navy Department at a cost of \$900,000. The plant's product is expected to remove the last danger element from ballooning. Experts declare that production of helium in quantities will soon make it possible for big passenger and freight airships to travel everywhere and that the airship as a war weapon will surpass even the fleet airplanes. Helium, the material Count Zeppelin needed to make his big airplanes a success, removes the danger of fire from the gas filling in the balloon. American scientists, urged on by the English government, are responsible for the discovery and the development of helium. The natural gas of certain wells at Petrolia, in Clay county, is the best ever found for the extraction of the helium. The products of the wells will be piped to Fort Worth prepared for the balloons and distributed wherever the navy needs it. The government is now building the pipe line at a cost of \$4,000,000. Helium is said to have approximately 92 percent of the lifting power of hydrogen and is non-inflammable. An airship inflated with helium can not be brought down in flames and can maintain speed of an airplane. Heretofore, the gas filled balloon was at the mercy of the quicker airplane which could set the balloon blazing with bullets. When America entered the world war, the British government referred to the United States Bureau of Mines the problem of the industrial production of helium. Such a substitute for hydrogen was known to exist, but its cost was deemed prohibitive. Funds for experimental work were given to the Bureau of Mines by the Joint Army and Navy Board of Rigid Airships. The experiment plant was erected at a cost of \$250,000. Work progressed quickly and quietly. About the time the armistice was signed, it was decided industrial helium had been produced economically and efficiently at the experimental plant. Greatest secrecy was exercised by the government in conducting the ex-

BUILD COTTAGES FOR SOLDIERS

Munich, February 11.—(By Associated Press)—To give employment to returning soldiers the Ministry for Social Affairs and the Ministry of Finance have decided to build cottages in districts where there is, or may be with the resumption of industry a need. The Ministries have announced that building bonuses will be allowed by the state, the state itself bearing two-sixths of the costs, the empire three-sixths, and the towns or communities one sixth. The houses to be constructed are to be workmen's cottages, and the rent for them will be settled by the state. If the cottages especially benefit individual employers, the latter will pay part of the town's one-sixth and will collect the rents as security for their investments. They may not however advance or change the rent without permission from the state or the community, nor may they alter the construction nor mortgage the property. Brownell incubates eggs, 3c each.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute.

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets. These pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place. Most headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." Note how they "clear" clouded brain and how they "perk up" the spirits. 10c and 25c a box. All druggists.

## News of Interest to Women

Amelia Galli-Curci achieved one of the greatest successes of her career in a recent concert in the New York Hippodrome. The house was sold out more than a month in advance and reaped \$14,000 for the benefit of the Stonyold Sanatorium.

The audience was fashionable and was likewise reluctant to warm up to her until she passed her third group. Then of a sudden it woke up to the sparkle of her always triumphant "Shadow waltz" from "Dinorah" and to the fact that she was singing as exclusively as ever she sang last year—and with the appreciation came a flattering demonstration.

There was the old lusciousness in Mme. Galli-Curci's voice and the brilliancy of staccato which she has never, and will probably never lose. What ever she sang was obedient to the pitch, was uttered with the vocal grace which has made her deservedly famous. Her other larger aria was the cavatina from "The Barber of Seville," and for encores she gave "Robt. Adair," and her "Home, Sweet Home"—it does almost belong to her alone, after last year—seated at the piano.

Mr. and Mrs. R. F. Barnes entertained their Euchre Club last Friday evening in most delightful fashion at their home in Milledgeville. It was a Valentine party and an extremely pretty affair, with the contents of St. Valentine cleverly carried out. In the living room the scarlet note was brilliantly effective in the decorations of hearts and flowers and in the dining room pink and white hearts formed graceful garlands.

Following the game an elaborate two course luncheon, also introducing the heart idea was served.

Mr. and Mrs. Howard Haynes made high scores and won appreciated favors. Edison music was also enjoyed. The guests were in high spirits and tarried till the wee small hours.

Mrs. Floyd Eichelberger and Mrs. Lester Hidy assisted in the cordial hospitalities.

Mr. and Mrs. Roy Pfeiffer entertained with an elaborate dinner Sunday at their country home on the Devalon Road, their guests including Mr. and Mrs. J. B. Mark, of Seldon, Mr. and Mrs. Bruce King and children, of Good Hope, Mr. and Mrs. F. E. Eichelberger, of Jeffersonville, Mr. J. G. Couch of Bloomingburg, and Mrs. Anna Pfeiffer.

The table was prettily decorated in little hearts and potted plants and the dinner hour one of congenial pleasure.

Success beyond the most sanguine expectations crowned the teas given

by the Mothers' Circle for charity relief Friday and Saturday afternoons, and the liberal patronage gave ample proof of the sympathy of the public with the efforts of this club.

An astonishingly large sum, right at \$475.00 was cleared—a sum which under the judicious personal management of these women, will relieve an immense amount of suffering.

Socially the teas were delightful and the tea tables, bright with flowers and valentine decorations, were filled again and again, while people visited and enjoyed the music generously furnished by local talent.

Friday afternoon a quartet, including Miss Mazie Kessler and Miss Gwendolin Wolfe, violinists, Mr. Oliver Tracey cornetist and Miss Imogene DeWees pianist, played beautifully and on Saturday afternoon Jazz music, furnished by Misses Mary Ellen Briggs, Marion Whelpley, Messrs James Hagerty and Robert McFadden delighted the listeners.

At the booths everything was cleaned out.

The entire affair was wonderfully managed, with every woman in the club actively doing her part. Mrs. Clarence Craig was the general chairman, Mrs. Earl Barnett and Mrs. C. N. Baer chairman of the tea tables; Mrs. F. M. Blessing chairman of the booth of eatables and Mrs. W. H. Lipsitt, the candy booth.

The Circle felt deeply grateful to Mr. Frank Bending for the use of room, to the Washington Light, Gas and Electric Light Co., to Mr. Fred Bailey for the piano and Mr. H. Thompson for its transfer to the room, to Mrs. Lizzie Buck who turned over to the Circle her entire Valentine floral offering, to the merchants of the town who donated so generously and those men who contributed such liberal checks, to the musicians and to the scores and scores of people who donated eatables and candy and lent assistance.

In spite of inclement weather a goodly array of women proved their interest in the newly organized committee for Devastated France by attending the meeting at club room Saturday afternoon.

Mrs. Bookwalter of Springfield, who was present to outline the work to be done by local branch, displayed a variety of garments and quilts such as are being sent with all possible haste to the needy peasantry of France.

It will be of interest and a just cause for pride to know that Fayette county women, who have been in the front ranks in every good work, who have given of their time, strength and means during the past two years until it seems almost impossible to meet further demands, again spring to this last call for

help. The work even now accomplished is amazing and was highly commended by Mrs. Bookwalter who expressed her surprise and delight.

Especially appreciated is the six hundred dollars donated by the War Chest Committee which has awakened deepest gratitude in every heart.

The Stereopticon pictures from photographs taken on the spot, told their own inexpressibly sad story, confirmed the conviction that our work of love is not yet over. The next meeting of committee is called for Saturday March 1st.

This week the Woman Suffrage Association of Washington and Fayette County will make a canvass to obtain the names of all women who believe that the vote should be given to the women of Ohio.

It is important that this work be done in time for the delegates to carry the report to the State convention in Columbus, February 26 and 27 at the Deshler Hotel.

The close of the canvass will be celebrated at a mass meeting Monday February 24th which will be addressed by Mrs. Bruce Franklin and others. All women are cordially invited to attend this meeting.

The Browning calendar offers a very attractive program for Tuesday evening. Miss Irene Tobin will give an interpretation of Browning's "Pippa Passes." Mrs. Roma Brown will read war poems and Miss Wanda Wolford will contribute something in lighter vein. Mrs. W. E. Robinson and Mrs. Frank Blessing will furnish the music.

The office force of Dahl-Campbell Company entertained with another delightfully informal dance on Saturday evening. Messrs. J. H. Whelpley and Orville Leveck furnished excellent music at the piano and drums. A delicious luncheon was served.

Women as well as men are sharing in the interest of the announcement that the new Peoples and Drivers Bank will be thrown open in a public reception on Thursday, February the 20th and there is little doubt that among the visitors the number of women taking advantage of this opportunity to inspect the magnificent new bank will be large.

## CONDITION R. C. HUNT UNCHANGED

Shortly before noon Monday Mrs. L. L. Brock received a telegram from Dr. Brock at Bowling Green, Ky., saying "Mr. Hunt's condition unchanged. All family with him. Plenty of help."

A host of friends are anxiously awaiting word of the crisis which earlier wires indicated would be reached today.

## TRIAL POSTPONED UNTIL FEBRUARY 25

The trial of Joe Dunson, charged with selling intoxicants, which was to have taken place Saturday night, was continued until February 25th because of the failure of the prosecuting witness to appear on time.

The charge against Dunson, it became known Monday, was filed by the state liquor license inspectors, some little time ago, and about the same time, it is announced, a charge of gambling was filed against Dunson.

## IS STILL ABSENT

Lew Pickens, against whom charges of selling intoxicants were filed a week ago, and who was allowed to go in search of bond, is still searching—or at least the authorities supposed this to be the case as he has failed to return.

## EVIDENCE TAKEN ON CHARGE OF NEEDLESS LOSS

House Committee Hears Evidence of Officers

Who Fought in the Argonne Battle

Washington, February 17.—Evidence of officers and men who fought with the Twenty-fifth Division, Kansas and Missouri troops, in the battles of the Argonne, was presented to the House Rules Committee today by Governor Allen, of Kansas, in support of his charges of needless sacrifice of life because of lack of artillery and aircraft support.

Total casualties of the 25th, the Governor declared, exceeded 8,000, despite the War Department figures.

Governor Allen said that comments of men who took part in the battle

showed the Americans fought the German artillery with infantry arms, because a shortage of horses had delayed the artillery movements; that Germans were supreme in the air, sometimes flying so low as to kill American wounded and that American artillery fire fell into its own lines, killing and wounding men because of lack of aircraft to signal the artillery.

## NAVAL LOSSES OF THE FRENCH

A Full List is Given to the Public for First Time

(By Associated Press)  
Paris, February 17.—A full list of French naval losses in the war which has been published includes four battleships, four armed cruisers and one fast cruiser, 14 destroyers, 8 torpedo boats and 14 submarines lost. The minor ships which were sunk were five auxiliary cruisers, four gunboats, 72 submarine chasers and eight smaller craft.

## TROUBLE FEARED NEAR BERLIN

(By Associated Press)  
Berlin, February 16.—Trouble had been expected in Berlin today from radical elements, but up to late today no disturbance had been reported.

The expected outbreak was said to have been nipped in the bud by the arrest Saturday night of 80 members of a Spartacist and soldiers' union.

**MEMORIAL EXERCISES HELD**  
Washington, February 17.—Memorial Exercises were held in the House Sunday for former Representatives Davidson, of Wisconsin; Jones, of Virginia; Talbot, of Maryland, and Robbins, of Pennsylvania, who have died during the present Congress.

## GROUNDHOG CASE

Whether the groundhog had anything to do with it or not, we are having our usual winter, mild though it is. But what we wanted to say was this: The service you get here don't depend on any antiquated superstition — it is the product of years of experience, and an honest desire to give value received for every cent our patrons spend with us.

## TRADES COUNCIL OF U. S. LABOR WIRES GOMPERS

Would Oppose Granting Contracts Abroad to N. Y. Association

(By Associated Press)  
New York, February 17.—The executive council of the buildings trades department of the American Federation of Labor today cabled to Samuel Gompers in France asking him to request European labor leaders to oppose contracts sought in France and Belgium by the Building Trades Employers Association of this city. This action follows the calling of a general strike effective today of all basic buildings trades workers employed by the Builders Association.

## WILL RETURN TO CONFERENCE ON MARCH 13

(By Associated Press)

## JOINT MEETING HELD WOMAN'S COMMITTEE PROBATION OFFICERS

A very profitable meeting of the women of Fayette county who are interested in children took place in Mrs. Franklin's room on Saturday afternoon.

Reports from the various townships on the school drive, now in progress, were very encouraging. Paint township so far has been the most successful in getting all of her children into school. The other townships are falling into line and a good report is expected at the end of time allotted for the drive. Over thirty boys and girls in town and county have re-entered school since the drive began.

The cigarette drive which will be started shortly was discussed. The Woman's Committee and the W. C. T. U. will co-operate in this drive.

The next subject discussed was the Y. M. and the Y. W. project for Fayette county. This topic is growing in interest throughout the townships and there is no doubt but that something definite will be decided upon in a short time.

As a result of the School Drive it was unanimously voted to recommend to the County Board of Education that a County Truant Officer be procured. The objection to the plan of having township truant officers was presented as follows:

First, the uneven methods do not bring satisfaction. If one township compels all of her children to get into school and another township is lenient in this line—it results in an uneven method of discipline which is not efficient. Then when an extreme case must come into the Juvenile Court the parents say that it will be unfair to prosecute a family in one township and not in another. This objection would be entirely eliminated with one truant officer for the county.

Second, The township truant officers live in the same vicinity with the pupils and neighborhood feelings sometimes arise which makes it hard for him to do his duty with justice and equity.

Mrs. Franklin was chosen to consult with the County Board on this question.

## LARGE AUDIENCES GOOD SERMONS

The services at Grace M. E. Church, Sunday, were featured by large audiences and forceful sermons by Dr. Mahood, evangelist in charge of the series of meetings.

Each service was not only largely attended but the interest manifested was most gratifying. A plain, helpful and at the same time powerful sermon was delivered to the men in the afternoon, and at the same hour Miss Mahood addressed a large number of women.

The night service brought forth an audience which packed the auditorium.

The series of meetings will continue throughout this week.

Tonight the sunshine chorus will be a feature of the meeting.

**REBEKAH RED CROSS UNIT**  
The Rebekah Red Cross Unit will meet for work at the regular hour at the work rooms on Tuesday.

## "AGE OF ACES" TELLS OF BATTLES

COLONEL BISHOP

Colonel William Bishop, leading British aviator, with seventy-two official victories over enemy planes, photographed recently in Boston, where he told of his many battles in the air. Colonel Bishop told of his battle in the air with the late Baron Richthofen, leader of the famous German flying circus. During this fight the bullets from Richthofen's machine almost tore the coat from Bishop's back, smashed his helmet and ripped off his necktie. After fifteen minutes of fighting the German quit and flew off to the German lines. Colonel Bishop has been decorated with most all the distinctions offered by the Allied Governments, including the British Victoria Cross.

## HEMORRHAGE IS CAUSE OF DEATH OF WM. M. STUCKEY

Oldest Employee of Washington Post Office And For 17 Years Carrier On Route Four, Is Dead.

Mr. Wm. Stuckey, aged 77 years, for 17 years mail carrier on Rural Route No. 4, and the oldest employee of the Washington postoffice, died suddenly about 8:15 o'clock Saturday night while on his way home from a picture show, death being due to a hemorrhage.

Mr. Stuckey had been attending a photodrama at the Colonial theatre, and evidently became ill and started home. Upon reaching a point near the Wonderland theatre he was seen to stumble and then turn toward the entrance to the Wonderland, where his condition was realized at a glance by Mr. Charles Johnson, who picked him up and carried him into the Johnson Auto Sales room. He rapidly breathed his last before a physician could arrive. The body was taken to the home in the McCoy ambulance about midnight.

Mr. Stuckey belonged to one of the well known old families of the county and had a large connection as well as wide acquaintance, to whom his death comes as a great shock. He was a man of many fine qualities and high sense of honor and in his years of faithful and capable public service had won the high regard of the community as well as of a host of personal friends.

He was a Methodist in his church affiliation and belonged to the Masonic Lodge and the Independent Order of Odd Fellows.

Mr. Stuckey's death breaks up a very happy home circle and sympathy goes out warmly to the wife and three daughters, Mrs. Peasley Stokesbury, Mrs. John F. Dial, and Miss Nelle Stuckey, of Columbus. Out of his large family there are now living one brother, Mr. John Stuckey, and three sisters, Miss Jane Stuckey, Mrs. Stephen Mayo and Mrs. Clay Thompson.

Funeral services will be held at the home on Columbus Avenue Tuesday afternoon at 2:30. Burial will be made in the Washington cemetery.

## DEATHS WHALEY

Anna B. Whaley, aged 28 years, wife of Thomas Whaley, died Saturday afternoon at four o'clock, of pneumonia. Funeral services will be held Tuesday morning at ten o'clock. Interment in the Washington cemetery.

## PENSION ALLOWED

# FRANCE WILL NOT TRUST THE BLOODY HUNS

Future Coming When the Huns Might Use Chemicals Instead of Cannon

(By Associated Press)  
Paris, February 17.—"There never has been any disagreement on the fundamental principles of a league of nations between the French delegates and the delegates of the other powers," said Professor Ferdinand Larnaude, dean of the Paris law faculty and one of the French delegates on the league of nations commission, today.

"The only differences of opinion were those expressed yesterday by Leon Bourgeois, with whom I am completely in accord. We do not seek an international army for the purpose of making war but for the purpose of preventing it. God knows we are a peaceful people and we have proved it during 44 years of mental anguish in the face of the

military preparations going on east of us.

"Further disturbances of the world's peace will come from Germany alone. Germany's unsatiated, greedy appetite, her lust for power and domination, will return as soon as she feels strong enough to renew her aggressions. Inasmuch as Germany some day will be admitted to the league of nations, what M. Bourgeois and myself objected to was the necessity of being placed in the position of taking Germany's word for anything. The German people have not progressed along the lines of sincerity.

"We have ever confidence in the undertakings of the United States, Great Britain, Italy, Japan and all other members of the league of nations. We are willing to accept their word, but we desire in the future to avoid the possibility of having no other guarantee than Germany's engagement for our safety.

"Henceforth Germany will strive to develop her recent chemical discoveries and advise new ones and new means of destruction, in which gun-powder, cannon and rifles will not enter. The Germans will seek to profit by their development along the lines of chemical discoveries at the expense of other nations, which are somewhat belated or are unwilling to search for new methods of destruction.

"These means of destruction may easily be concealed, and, therefore, it is not possible for us to accept the declaration of an interested nation in such matters when such an interested nation is Germany."

The professor added that with new developments in aerial warfare Germany might prepare secretly sufficient air forces to destroy Paris in one day.

"Surely when Germany enters a league of nations," Professor Larnaude continued, "she will agree to sign every undertaking we desire, but we know what undertakings mean to the Germans. Did they not sign a treaty guaranteeing the neutrality of Belgium?"

## ANTIOCH WILL BECOME NIGHT SCHOOL FOR Y

Historic Institution at Yellow Springs Will Be Under New Management After June

(By Associated Press)  
Columbus, O., February 17.—A college for night school graduates. This is the plan of the Young Men's Christian Association, which will take over control in June of Antioch College at Yellow Springs, Green County.

The association has felt for some time the need for an institution which would admit upon certificate those who had completed preparatory courses in educational departments of city branches and which would carry on the vocational training which has become an important part of the association's peace-time activities.

Founded by Horace Mann. Founded in 1853 by Horace Mann, probably the best known educator of his day, Antioch College is said to have been the first college in the world to open its doors to men and women upon an equal basis. This claim, however, has been disputed. It has graduated many men who afterward became nationally known.

It is expected that the Y. M. C. A. will greatly increase the plant and equipment. Plans for a \$1,000,000 endowment fund are talked of. Formal transfer of the institution to the association will not be made until after the end of the school year in June, it is said, but in the meantime it will be represented upon the board of trustees by three members, one of whom, Dr. Grant Perkins, was elected president recently to succeed Dr. Fess.

## ANNUAL INSTITUTE AT BUENA VISTA

Wednesday and Thursday of this week the annual Farmers' Institute will be held at Buena Vista, and as usual will attract the citizens of that community as no other event.

The officers in charge, who include Wm. S. Patton, President and A. C. Zimmerman, secretary, as well as other prominent citizens of that community, have prepared a good program for the two days, and in addition to the local part of the program the following state speakers will deliver lectures at each session: Messrs. Nicodemus and Aldrich and Miss Woods, the latter, however, appearing only on the last day of the institute.

## JAPS SHIPPING ASPEN TIMBER

Vladivostok, January 25.—(By Associated Press Correspondent)—The Japanese, profiting by the low value of the ruble, has bought up all the

aspen trees in the Ussuri region and this has caused a scarcity of fuel for the use of the Ussuri railway, says the newspaper Dalekaya Otkraina, which adds that all the local inhabitants have been mobilized by the Japanese to prepare the wood for export. A proposition is under consideration to increase the tax on exportation of the aspen logs so as to stop the Japanese from shipping them out of the country.

## PORTO RICANS ARE UNEASY

San Juan, Porto Rico, January 27.—(By Associated Press Correspondent)—Members of the graduating class of the University of Porto Rico who recently signed a petition to the legislature asking that a memorial to President Wilson be so amended as to make a definite demand for the independence of Porto Rico are now fearful that their action will result in refusal to appoint them as teachers in the public schools.

The Commissioner of Education, Paul G. Miller, has sent to the dean of the university a letter in which the commissioner said that his attention had been called to the action of the students, and added:

"Since this request is made by persons who are American citizens and at a time when the nation has been exceedingly careful to scrutinize the loyalty of all its citizens you are hereby directed to furnish me with a list of any members of graduating class of the Normal school who may desire to enter teaching service. I shall not appoint or approve the nomination by school boards of persons concerning whose loyalty to the United States of America there may be any doubt. Please let me have the list."

## THREAT MADE TO GERMANY

Copenhagen, February 12.—(By Associated Press)—Great Britain and France have sent notes to Matthias Erzberger, president of the German armistice commission, the Weimar correspondent of The Berlingske Tidende says he learns from a reliable source, dealing with the failure of Germany to deliver locomotive and agricultural machinery as agreed. He says the tone of the note virtually constitutes a threat to Germany.

The correspondent adds that it is reported a similar note is expected from the United States.

Harry ("Slim") Sallee's retirement from baseball will be a hard blow to the pennant hopes of the New York Giants. The veteran left-hander has always been a favorite of Manager McGraw, who managed to get more service from the slim southpaw than the fans of St. Louis believed was left to him when he quit the Cardinals three or four years ago. The Cardinals hurler was especially valuable to the team in the last few seasons as a relief pitcher, saving many games which were close and with the slaban on the mound waver.

## A GREAT ECONOMY BECAUSE OF EXTRA WEAR

"After a trip to Kilauca, the active volcano of Hawaii, my Neolin-soled shoes were the only ones not absolutely ruined. Many in our party were hob-nailed boots," said Miss Jean I. Lane of Seattle, Washington.

The sharp jagged lava of Kilauca cuts an ordinary sole to pieces quickly. That Neolin Soles stood the test bus emphasizes their toughness and durability. These qualities are built into them by a scientific process. Women—and men and children, too—who are hard on shoes should buy themselves Neolin Soles. They come in many styles, and because of the extra wear they give, are a great economy.

And any repairman will re-sole your worn shoes with Neolin Soles, which are flexible and water-proof as well as long-wearing. They are made by The Goodyear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels, guaranteed to outwear all other heels.

## SERBIANS AGAIN SECURE ANOTHER HOLD UPON LIFE

Little Buffer State is Entirely Free of the Invader and Industry is Being Resumed

Need of Clothing and Fuel is Very Great

Nish, Serbia, February 1.—(By Associated Press Correspondent)—Three months of unremitting industry, unhampered by Bulgaria and Australian depredations or interference, have enabled the Serbian people to secure a new hold on life. With the country entirely free of invaders. The large peasant population have succeeded in setting things in order in surprising fashion, and conditions should be almost normal soon.

Large quantities of wheat and other staples, which the shrewd Serbian farmer hid from the enemy, have reappeared. At the moment the most pressing needs seem to be clothing, shoes, fuel and agricultural implements.

Apparently there is plenty of money in the country, some of it having come from Austrian and German soldiers, who, it may be said to their credit, paid for most of the articles they took from the Serbians during their occupation. However, the Bulgarians, who requisitioned almost everything they required from the already strained population, often paid nothing for what they took. In the cities most of the stores have no stocks because they sold almost everything to the Americans and Germans.

Fortunately last fall the harvest was exceptionally good and there probably will be nothing approaching starvation among the poor this winter. The enemy troops carried off nearly every article of value they could lay hands on, but they did not have time, owing to the suddenness of their retreat, to take with them more than 25 per cent of the available grain supply. Meat is abundant but high in price. Before the war it sold for six cents per pound, now it sells for 56 cents. Large numbers of sheep raised in the mountains furnish not only valuable meat supply but an abundance of wool which has provided the peasants with the only clothing they have had in four years.

Serbia's most vital need is for clothing. Even well-to-do persons are shabbily or, at least, scantily clad. The Associated Press Correspondent observed an army officer of high rank dressed in a shirt made of flour sacks. Little clothing that may be bought is held at prohibitive prices. The ordinary peasant working costume costs \$150, shoes \$50, underwear of poor quality \$25, and thread is priced at \$2 a spool. A consignment of old clothing from the Buffalo, N. Y. chapter of the American Red Cross, valued at home at \$72, was appraised at \$1,500 by a merchant in the Pirot district.

AT THE PEACE TABLE THERE WILL BE GERMAN WAITERS.—Baltimore American.

THE 17-YEAR LOCUST OR CIADA IS DUE TO APPEAR OVER THE WESTERN HALF OF OHIO THIS YEAR. In 1902 this insect appeared and caused the terminal branches on limbs of forest trees to die in midsummer and gave the woods a scorched appearance. In some localities much injury was also done to young fruit trees.

Entomologist suggest, therefore that it would be well for those contemplating the setting out of fruit trees this spring to take into account the expected appearance of locusts and to provide cheese cloth protection for the young trees or delay planting until another season.

Arsenical sprays are not serviceable in killing 17-year locusts because they do not feed on the trees.

The injury is caused by the females inserting eggs in the young twigs. This weakens the twig, later causing it to fall to the ground.

This insect in its immature stage lives in the ground 16 years feeding on vegetable matter, and in the seventeenth changes to a winged insect which lives only a few weeks without feeding. The locusts will emerge from the ground wherever timber was standing 17 years ago and migrate to nearby trees. Orchards not located near such land will probably be little damaged.

The 17-year locusts are harmless to man or animals.

Hire County Club Leaders  
 County leaders in boys' and girls' club work in agriculture and home economics are being hired on a 12-months basis, this year in several Ohio counties. Their work will be directed co-operatively by local organizations, the United States Department of Agriculture, and the Ohio State University. Definite plans have been made for the employment of these leaders in Auglaize, Cuyahoga, Highland, and Muskingum Counties. Five other counties are also expecting, soon, to complete arrangements for securing the services of these workers.

One or more of 12 different lines of such club work will be conducted in over 50 counties in the states this year as follows: Pig growing, pig production food, poultry, gardening, gardening and canning, clothing, beef calf, dairy calf, corn, stock judging, and potato.

## RETIREES FROM GAME

EDDIE PLANK

Eddie Plank, one of the greatest pitchers of all time, has retired from professional baseball. Plank returned his unsigned contract to the New York American League Baseball Club with a letter saying that no amount of money would induce him to change his mind. Plank, who helped make the Philadelphia Athletics famous several years ago, was traded to the Yankees by the St. Louis Browns. He is forty-three years old, and no doubt has decided against the chance of marring a career which will long be remembered in the history of the national game.

## U. S. LOSES 15 CARGO VESSELS

(By Associated Press)  
 New York, February 15.—Fifteen cargo ships with a dead weight tonnage of 103,692 were lost during 1918 by the Naval Overseas Transportation Service, according to a report made public today by the District Supervisor of the Third Naval District.

The removal of the ban of secrecy vital during the war as a shield to these vessels and their crews, discloses that six ships, aggregating 42,527 tons, were destroyed by enemy activity, five vessels with a combined tonnage of 44,071 tons, were sunk in collisions and four vessels, totaling 16,994 tons were destroyed by fire and explosion.

The report traces the growth of the Naval Overseas Transportation Service since the time of its organization late in 1917 and describes the part played by it in transporting food, munitions and supplies for troops and naval vessels abroad. Seventy-two ships were originally assigned to this service and when the armistice was signed, November 11, 1918, the cargo fleet numbered 453 vessels, including 166 ships ready to be taken over.

## Auto Thieves Vocation in Ohio Doomed

The Automobile Registering Company, a Corporation recently organized under the laws of the State of Ohio, with main offices in Cleveland, is now in a position to make life miserable, and successful theft impossible for the auto thief.

We have special representatives all over the State, whose training and qualifications eminently fit them for the work of running down auto thieves. This Corporation is in a position to offer the Auto Owners protection for the nominal sum of \$2.00 per year. Upon discovery of the theft, immediately notify your local police and sheriff and also our main office, Superior Bldg., Cleveland, O., and we will send the alarm to all our Operatives over the State, your chief of police or sheriff will call at once the counties adjoining your county at our expense.

Give as far as possible make and model of car, number of chassis, engine, license, color of body, wheels and top, and any special marks. Give your correct post office address.

ALL DUES PAYABLE IN ADVANCE AT OUR BRANCH OFFICE.

For the counties of Fayette, Ross, Highland Pickaway, Greene, Madison, Clark and Clinton, mail application and check to

## FARM NOTES

The Locusts Are Coming.

The 17-year locust or ciada is due to appear over the western half of Ohio this year. In 1902 this insect appeared and caused the terminal branches on limbs of forest trees to die in midsummer and gave the woods a scorched appearance. In some localities much injury was also done to young fruit trees.

Entomologist suggest, therefore that it would be well for those contemplating the setting out of fruit trees this spring to take into account the expected appearance of locusts and to provide cheese cloth protection for the young trees or delay planting until another season.

Arsenical sprays are not serviceable in killing 17-year locusts because they do not feed on the trees.

The injury is caused by the females inserting eggs in the young twigs. This weakens the twig, later causing it to fall to the ground.
